## Seeking position in: **Software Development**

I'm an experienced programmer with a keen interest in web development. Throughout my education I have worked on many different projects and have been able to apply my skill-set to get these tasks accomplished. These projects have allowed me to take on different roles such as lead developer, solo developer, and a team member.

---

## Technical Skills:

Languages:	Java, C++, HTML, CSS, Javascript, SQL, PHP, Python
Software and Frameworks:	Android Studio, MySQL, Visual Studio, Git, IntelliJ, Node.js, Bootstrap, jQuery, Django
Operating Systems:	Windows, Linux, Android
Additional Experience:	Server Management, Domain Management, Database Management, UI Design, Various Testing Strategies, Team Programming, Pair Programming

---

## Education:

### Central Washington University, Ellensburg, Washington | Spring 2016 – Present

Pursuing Bachelor of Science degree in Computer Science with a Minor in Mathematics. Expected to graduate June 2019 and have a current cumulative GPA of 3.57. While here, I've worked on projects with many different languages including Java, C++, and HTML/CSS/Javascript but have also been able to learn about different algorithms that might work best to implement in these projects.

### Oregon Institute of Technology, Klamath Falls, Oregon | Fall 2015 – Winter 2016

Began Software Engineering courses. These courses introduced me to C++ and computer architecture.

---

## Projects:

### NRS Systems Widget

I am currently working on a calendar widget with NRS Systems that interacts with Google Calendar's API and displays a calendar with the user's events.

### Personal Website

I created this [website](#) as a project for my web development course at Central Washington University. I decided to use this project to make something useful and display my skills. This site is still a work in progress and I have plans to update it in the future.

### Calculator

My [calculator](#) was created as a project for a software engineering course and is coded out of HTML and CSS but mostly Javascript.

---

## **Work Experience:**

### **Merchandiser**

**Coca-Cola Bottling Company, Yakima, Washington | April 2017 – Present**

Maintained and rotated inventory of product at multiple stores. Currently maintaining product at CWU campus.

### **Teachers Assistant**

**Central Washington University, Ellensburg, Washington | September 2018 – December 2018**

Assisted professor in grading and helping answer students' questions during lab hours.

### **Golf Course Employee**

**KP Golf Inc., Selah Washington | March 2011 – October 2016**

Assisted customers, ran cash register, and improved communication skills.
